THE MAGAZINE OF WESTERN LIVING

INDEX TO ALL EDITIONS • JANUARY 1979 TO DECEMBER 1979

Sunset Magazine is published each month in four editions. Because of the climate and other differences, many articles run in only one or two of the four editions. You can tell which edition of *Sunset* you read by looking at the contents page of the magazine. At the upper left corner you will see the name of the edition:

— *Northwest* edition for readers in Alaska, Washington, Oregon, Idaho, Montana, and Wyoming.

— *Central* edition for northern and central California, northern Nevada, Utah, and Colorado.

— *Southern California and Hawaii* edition for coastal Southern California and Hawaii.

— *Desert* edition for southeastern California, southern Nevada, Arizona, and New Mexico.

In the index listing, N denotes Northwest edition; C, Central edition; S, Southern California edition; and D, Desert edition. The word "all" tells you that an article has appeared the same month and page in all four editions. Index listings are written as follows: May 76 N, C (May, page 76, Northwest and Central editions).

Binder orders should specify the number of single units desired (12 issues per binder) and the years you wish imprinted. Imprinting is available for each of the past ten years plus the current year and next year. Binders: $5.50 each (with index, add $1.00).

Indexes are available for each of the past ten years. Please note that indexes are included in the price *only with magazine files*; ordered otherwise, $1.00 per index.
